---	------------	-------------	----------

Competent stamping and embossing skills are required for this class.

Over two classes I will take you on a journey and a challenge of completing twelve designs within a shadow box picture frame. The main theme in this project will be stamped images all based on 'things with wings'. Each panel will showcase an image on a background created with watercolour crayons, embossing and resist techniques. A touch of 3D and a delicate shimmer will create a look of movement and flight. Each section of this frame can be reproduced as a single card. This class is for anyone that would like to take their card making skills to a different level.
